

CHALLENGE CHECKLIST FOR LINE A

- Observe and keep notes of what is going on in the polling place and the names of all people involved.
- Ensure that the board workers are doing their jobs properly.
- Immediately call and advise your municipal Line A Headquarters of any disruptions, improprieties, illegal acts, and conflicts that delay or threaten to delay the orderly voting process. If you cannot reach your Headquarters, call (973) 301-0001 and ask for Anne or Steve.
- 2 Ensure that an opponent's challengers do not hassle or harass our voters.
- 1 Challenge likely opponent voters that you have a reasonable basis to believe are not qualified to vote. Address your challenge(s) to the board workers and not directly at the voter.
- If your municipal Line A leader has asked you to do so, keep tallies of the total Democratic vote so that afternoon and event GOTV efforts can target voters who have yet to go the polls.
- Make sure that the machine reads zero when the polls first open.
- Check the machines visually at least once an hour to see that items like gum or paper clips have not been jammed into machine's levers. Do not touch any machine except to cast your vote.
- Early in the morning, make sure that there are emergency ballots on hand for use when machines break down so voters do not have to wait for repair. Also note that the ballots are sealed with a green seal and that the seal numbers match the numbers on the envelope. If emergency ballots are used, ensure

replacements are redelivered and inserted in the back of the machine. At the close of the election, observe the counting and tallying of the votes and make sure the number of votes in the machine is the same as number of people who voted. If there are no emergency ballots, call (973) 301-0001 and ask for Anne or Steve.

- Early in the morning, make sure there are provisional ballots on hand for voters who have recently moved, and ensure that the Board Workers follow the rules. An information sheet on Provisional Ballot Procedures is provided.

③ (Only one challenger at a time per candidate is allowed in the polling place.)

- You must wear your challenger badge at all times when in the polling place.

④ (No challenger is permitted to sit at the table holding the election binders; only certified board workers are permitted.)

- Only certified Board Workers are permitted to touch/handle voting machines, election binders and other election supplies.

- Assess the set up of the room to insure accessibility for the elderly, handicapped, parents with strollers, ease of movement for voters, how will the room accommodate a long line, etc.

- Politely suggest changes that will allow voters to flow through the site with the most ease and demand changes required by law (securing a new machine if it is broken, providing a private area and privacy screening for paper ballot voters, etc.).

⑤ (Don't cause any disruptions at the polls because the Board Workers can remove you.)

- If a family or other emergency requires a challenger to leave the poll site unattended, contact your municipal Line A headquarters so that a replacement challenger can be named, if necessary.

Call (973) 301-0001 and ask for Anne or Steve
if any unexpected problems arise.
